SUBJECT INDEX

Age dating

The British Tertiary igeneous province: potassium–argon ages of the Antrim basalts, *J. W. Purdy, A. E. Mussett, S. R. Charlton, M. J. Eckford & H. N. English* .. 327
A reappraisal of the $^{40}Ar/^{39}Ar$ stepwise degassing technique, *N. Robin Brereton* 449

Atmospheric physics

Particulate matter in Antarctic snow, *D. W. Parkin & D. R. Phillips* 15

PAGE

Earth's crust
The crustal structure of Rockall Plateau Microcontinent, *R. A. Scrutton* 259

Earth's interior, Physics of
Static deformation of a multilayered sphere by internal sources, *Hans R. Wason & Sarva Jit Singh* 1
Temperature in the lower mantle, *Chi-Yuen Wang* 29
Toroidal free oscillations of the laterally heterogeneous earth, *Raúl I. Madariaga* .. 81
Theory for errors, resolution, and separation of unknown variables in inverse problems, with application to the mantle and the crust in southern Africa and Scandinavia, *Zoltan A. Der & M. Landisman* 137

Earth's magnetism
Boundary conditions and calculation of surface values for the general two-dimensional electromagnetic induction problem, *L. J. Pascoe & F. W. Jones* 179
The perturbation of alternating geomagnetic fields by three-dimensional conductivity inhomogeneities, *F. W. Jones & L. J. Pascoe* 479

Gravity
Improvement of convergency in iterative gravity interpretation, *D. Dyrelius & A. Vogel* 195

Heat flow
Thermal convection in polar ice sheets related to the various empirical flow laws of ice, *T. Hughes* 215
Terrestrial heat flow in North-east England, *M. H. P. Bott, G. A. L. Johnson, J. Mansfield & J. Wheilden* 277
Anisotropic lattice thermal conductivity in enstatite as a function of pressure and temperature, *H. H. Schloessin & Z. Dvorak* 499

Letters to the Editors
Some comments on the paper ' Gravity measurements in the North-eastern Sudan and crustal structure of the Red Sea ' by I. R. Qureshi, *R. W. Girdler* 135
Subsidence of Rockall Plateau and of the continental shelf, *M. H. P. Bott* 235
The problem of gravitational absorption, *Erwin Groten* 447

Mars, Topography
Analysis of large-scale Martian topography variations—I, *R. A. Wells* 101

Palaeomagnetism
Magnetic mineralogy of unheated and heated red sediments by coercivity spectrum analysis, *D. J. Dunlop* 37
Palaeomagnetic and radiometric evidence for the age of the lower boundary of the Kiaman magnetic interval in South America, *R. Thompson & J. G. Mitchell* .. 207
Notes on progress in geophysics. Palaeomagnetic directions and pole positions—XII, *M. W. McElhinny* 237
The Palaeomagnetism of the Permian rocks of the Black Forest, Germany, *H. J. Konrad & A. E. M. Nairn* 369
On the magnetization history of the Northern Irish basalts, *R. Lovlie, A. Gidskehaug & K. M. Storetvedt* 487
A palaeomagnetic study of the Mull regional dyke swarm, *J. M. Ade-Hall, P. Dagley, R. L. Wilson, A. Evans, A. Riding, P. J. Smith, R. Skelhorne & T. Sloan* .. 517

Research note
Multi-component magnetic survey in areas of ultra-low Z and the location of the dip equator, *Ebun Oni & E. O. Fowora* 231

Seismology
A comparison of NOS and USSR magnitudes, *James N. Jordan & Roger N. Hunter* .. 23
Generalized ray theory for a layered sphere, *Freeman Gilbert & Donald V. Helmberger* .. 57
A theorectical model of primary frequency microseisms, *E. O. Okeke* 289
Seismic waves in laterally inhomogeneous media, *B. L. N. Kennett* 301
A wide band horizontal accelerometer with preliminary earth mormal mode and seismic investigations, *Jay Dratler & Barry Block* 337
Seismic velocities measured in rocks of the Troodos igneous complex, *J. M. Lort & D. H. Matthews* 383
Observations of normal modes from 84 recordings of the Alaskan earthquake of 1964 March 28, *A. M. Dziewonski & F. Gilbert* 393
